

The Premier In-bottle Wine Decanter.

Soirée wine aerator replaces the traditional wine decanter with function and elegance. Soirée allows you to serve instantly decanted wine, one glass at a time.

Simply twist the Soirée in to any wine bottle and pour. As you pour the wine, oxygen gently and naturally infuses the wine, increasing the flavors and aromas. The greater angle at which you pour, the greater amount of air the wine will be exposed to. Which means you can control the amount of aeration you give wine, and it can be used on red and white wines.

Soirée was voted "The Best Bet" of all the top wine aerators, as it will not over-aerate wine, is easy to use, and its glass construction will not stain or impart flavors on the wine. Further, Soirée will help you learn about and taste more of the wine you drink.

Look for Soirée at your favorite store, vineyard, or visit us online.

L/S: The Gourmet *On-The-Go*

In response to public request, Soirée has created a travel case for its hand-made glass in-bottle decanter. We are proud to introduce the Soirée L/S (*Luxury/Sport*).

The proprietary design of the Soirée glass aerator remains simple, sophisticated, and even sleeker than before, but is packaged in a sporty travel case. The Soirée L/S travel case is a molded case with a stitched on emblem, a full zipper enclosure, hidden magnetic snap, and an oversized zipper pull-ring that fits over the top of a wine bottle. Soirée L/S is for the luxury of wine enjoyment and designed for the gourmet *on-the-go*.
